## VILLAGE BOARD REPEALS FOOD TRUCK ORDINANCE

### Cut Auto License Fees and Declare for Daylight Saving

Antioch's food dealers' and "foreign" trucking ordinance has been discarded. The repeal of the code, which had been kicked around in the local courts for the past several months, came Thursday night at a special meeting of the village board. The measure had been in force since last July 1.

While the ordinance at the time of its inception, was generally regarded as a good thing for the town, the code, especially the provisions relating to the collection of a \$25 fee from food-carrying trucks, became extremely unpopular when the village began a drive for payment of the license and caused violators to be haled into police court.

The vote for repeal was unanimous, on both the trucking ordinance and the dealers inspection code which required a fee of \$5.00 from all merchants retailing foodstuffs.

Trustees bemoan the fact that the repeal has deprived the village of revenue that has been used for street cleaning, installation and maintenance of special lighting for the business section, and other minor improvements that were intended to be of direct benefit to the business firms. Some of the trustees have suggested a revival of the old business tax, in vogue here a decade ago, and which was repealed when complaints became general. The old business tax at least was equitable, trustees declare, and it did not single out just one class of merchants against whom the tax was assessed, as was the case with the food ordinance.

### Reduce Auto Fees

Auto tags for 1938 will cost local motorists only \$2.50, according to the edict of the board Thursday night. This is a 50 cent cut from last year's price, and applies to passenger cars and trucks of classes A and B, under 8,000 lbs. Class C trucks, of over 8,000 lbs. capacity, will be required to pay \$4.00. The original vehicle tax ordinance, passed several years ago, called for a fee of \$5. Later it was reduced to \$4, and then to \$3, and last year as a special inducement for prompt payment the fee was cut to \$2 for the month of May. Those who paid later were required to pay \$3. All the changes in the fees set from year by year have been made by resolution. There has never been any change in the original ordinance.

The board by resolution adopted daylight saving time to take effect at two a. m. Sunday, April 24, and to remain in effect until the last Sunday in September.

## OUTLINES USE OF LAND TO BE CLASSED AS NON-DEPLETING

Lake county farmers who are co-operating with the 1938 AAA program are having very little difficulty in making good use of land not devoted to soil-depleting crops, according to Farm Adviser H. C. Gulkerson.

As a rule they are anxious to use the diverted acres so as to accomplish as much soil improvement and conservation as possible, he explained. They are equally concerned in securing these adjustments and soil-building practices with a minimum of expense and in having them harmonize with the desired program for the farm.

### Take Inventory

In every case the first step being followed is to take an inventory of the conserving crops that are now found on the farm and that may be utilized in 1938. These may represent leguminous and perennial legumes and grasses or catch crops such as sweet clover.

If in addition new seedlings need to be made, alfalfa, clovers or grasses may be seeded alone this spring where the land is not too sour and can be prepared properly. These seedlings may also be made with a nurse crop of small grain if the nurse crop is kept down sufficiently by pasturing to prevent grain formation and if it is not cut for hay.

In the event the land is too sour to grow clovers, and if grasses are not desired, the land may be seeded to soybeans which may be either cut for hay or plowed under as green manure. The land can also be seeded to Sudan grass or millet and the crop used for pasture or cut for hay.

## Set Clock Ahead! Daylight Time to Begin Here Sunday

Residents of Antioch and the Lakes Region start their annual daylight saving time schedule at 2 a. m. Sunday!

Following the time change in the Chicago metropolitan area, the Antioch ordinance is for the duration of the summer to accommodate the thousands of people who make the Lakes Region their vacation playground.

Antioch clocks will return to Central Standard time at 2 a. m. Sunday, September 25, 1938.

According to the rules, the official change of setting the clock one hour ahead is at 2 a. m., but most residents will probably make their annual change upon retiring Saturday night.

## JOE NEMMER PLEADS GUILTY TO CHARGE OF ROBBERY AND MURDER

### Admits Part in Slaying of William Hancock Six Years Ago

Before Circuit Judge William L. Pierce in Waukegan, Joseph Nemmer, 36, of Racine, Wis., Monday pleaded guilty to the murder of William Hancock, Antioch resident, found strangled to death in his home here April 13, 1932.

Also involved are Edward T. Leonard, Michael Karapournos and Joseph Welsh of Racine, and Joseph Russo of Chicago. Leonard pleaded not guilty. Welsh is in a Racine jail fighting extradition.

Nemmer, who had confessed to participation in the robbery in which he and two others gagged and tied the aged man, chose to make the plea of guilty and throw himself on the mercy of the court when arraigned Monday.

Leonard, who admitted driving a "hot" car given by Jerome Welsh, 37, of Racine to Antioch on the night of April 12, 1932, for the gang also pleaded not guilty. Attorney Frank M. Daly was appointed by the court to defend him and a hearing was set for Friday on a motion to quash the true bill counts.

The court was requested by Karapournos, who is also known as Kraus, to appoint an attorney to represent him. Russo said he had Chicago counsel.

### Conscience Troubled

When Nemmer and Leonard were arrested last March 18, both made detailed statements to State Attorney Charles E. Mason and Chief Deputy Thomas E. Kennedy.

Nemmer said that he wanted to make a clean breast of everything because he had been on his conscience since he heard that Hancock was found dead.

Nemmer, Russo, and Karapournos left Welsh's home and place of business on High st., Racine, at about 11 p. m. on April 12, 1932, in an automobile driven by Leonard, according to the confessions.

Leonard absent from scene. When the car arrived in front of the Hancock home, Nemmer, Russo and Karapournos got out and took adhesive tape and a clothesline that Welsh had given them and broke into the Hancock home. Leonard meanwhile drove into the business section of Antioch.

When Nemmer, Russo and Karapournos got into the Hancock home, they found the aged man in bed. Hancock's legs were then tied to the bed with a clothesline. Hancock grunted but was unable to make any outcry with the tape around his mouth.

Instead of a fortune, the three found only \$5 and some cents. They left Hancock gagged and tied.

Later Leonard picked up the three men and drove them back to Racine. In the afternoon of that day Hancock was found dead. A coroner's jury held that his death was caused by strangulation and an assault.

## Forty Antiochans Attend County Shrine Club Meet

Twenty members of the Antioch Masonic lodge and their wives were in attendance at a meeting of the Lake County Shrine Club Tuesday night at the Masonic Temple in Waukegan. The invitation to local Masons was extended by Fred B. Swanson, president of the Shrine.

Noble Hyde W. Persh, past potentate of Medinah Temple, and a world traveler, was the speaker. Following the meeting the 40 localities, accompanied by 40 other Masons journeyed back to Antioch where a luncheon was served in the Masonic dining room.

## BUSINESS MEN UNITE TO BOOST RESORT REGION

### Antioch Lake Area to Be Featured in Advertising

Plans to boost resort and vacation patronage in the Antioch lake area today were nearing completion as President Ed Vos of the local Lion club received confirmation that this community is to have a free booth at the Travel Show to be staged at the Stevens Hotel by the Chicago Daily News the last days of this month, and copy and pictures for publication of an attractive folder were being prepared for printing.

In addition to distribution of many thousands of the folders within the next few weeks, an advertising schedule in Chicago papers is being arranged by live-wire resort owners and business firms of the area. The entire program will be augmented by thousands of pieces of advertising sent out by individual resorts who cater to the vacationist.

Competition today is not between firms in the same line of business in a community, but between whole communities themselves, a prominent business man of Antioch said. This community, he pointed out, has not done any advertising on a large scale for many years, consequently with competing resort sections "hitting the ball," and spending several thousands of dollars annually for publicity, this locality has suffered a decline in summer vacationist trade.

## Grade Students Are Sight-Seeing In Chicago Today

The seventh and eighth grade students today are on a sight-seeing trip in Chicago. Among the points of interest to be visited are the stock yards, and the Municipal airport. The group, accompanied by Miss Wilson and Mr. Chabough left early today by bus, taking their lunch, as they plan to spend all day in the city.

A guide will escort the visitors through the stock yards and a packing plant. Trips in the near future for other grades are being planned.

## Pioneer Lake Resident Dead in Chicago At 77

Mrs. Mary Wenigman, wife of the late Paul Wenigman, and who was a resident of Bluff Lake and Antioch for the past 45 years, died in Columbus hospital, Chicago, Saturday after a four weeks' illness following an accident in which she had broken her hip.

Mr. and Mrs. Wenigman were among the pioneer summer residents of this community. Their son, Paul Wenigman, has a summer home at Lake Catherine. There are also two other sons, Harry and Fred.

Mrs. Wenigman was born in Hartford, Wisconsin, 77 years ago.

## Joliet Puts Tax on Gaming Machines

A cash yield of \$20,000 annually is expected to be realized by the township of Joliet through a licensing ordinance passed Tuesday which places an annual tax of \$50 on "music boxes and all devices of skill and amusement operated by the insertion of a coin."

Although Attorney General Otto Kernner, in an opinion rendered last December ruled slot machines illegal, Joliet's new licensing ordinance includes such machines, according to Justice of the Peace Dominic Romano who presented the measure to the city council.

Many towns and cities have been collecting a tax from pin-ball machines for years, but an attempt to grant licenses for slot machines is new in this state.

## Girls' 4-H Club to Organize April 30

The Girls' 4-H club of Antioch will hold its organization meeting at the high school on Saturday, April 30, at two o'clock. Any girl between the ages of 10 and 21 is eligible for membership. Mothers are urged to attend this meeting so as to get a better understanding of 4-H club work.

Mrs. Henry Rentner was hostess to her bridge club at her home Wednesday afternoon.

## The Best Salesman Is a Pretty Girl!

MANUFACTURERS run a constant contest with each other to photograph the prettiest girls in the act of using their products. Magazines vie for prettier "pretty-girl" covers. But here is Miss Matilda Templeton. She sells people the desire to stop and look at the old-fashioned gardens of the Templeton Historical society in Massachusetts. Before Miss Templeton was placed in the gardens few people noticed them, writes Charles Flood. It takes a few minutes to discover that she's not real at all—only a window display trimmed and mounted—and placed behind the flowers.

## City "Dads" To Wind Up Year's Business Next Thursday Night

The Antioch village board will meet in special session next Thursday night to receive applications of tavern owners for renewal of license, and to close up the business affairs of the village for the fiscal year which closes Saturday, April 30.

All tavern licenses expire the last day of April, so all those who have not procured new licenses before midnight Saturday, April 30, will have to remain closed until new licenses are granted.

## Lake County May Send 30 to Military Camp

Thirty Lake county boys may enter the Civilian Military Training Corps for summer camp, according to word received today from Capt. F. W. Cray from the office of the commander for the Illinois military area.

The state quota was placed tentatively at 4,410, the report revealed, with 805 Illinois men scheduled to train at Fort Sheridan. This number will be augmented with 432 from Wisconsin.

Field artillery training will be limited to applicants residing in the counties allocated to Camp McCoy, near Sparta, Wis., which includes Lake county enrollees.

## Gov. Horner Announces Farm Floral Contest

To stimulate the interest of farmers in beautifying their farms and homes adjoining State highways, Governor Henry Horner has offered cash prizes totaling \$1,305 in a Farm Floral Contest.

Through the contest, the Governor hopes to encourage the farmers to supplement the State's Roadside Development program. So far 3,000 miles of highway roadides have been developed to serve the triple purpose of controlling soil erosion, reducing maintenance costs and beautifying the rural scene.

Write to the Landscape Engineer, Illinois Division of Highways, Centennial Building, Springfield, for entry blanks. They also may be obtained from local clubs of the Illinois Federation of Women's Clubs and the Garden Clubs of Illinois, from county farm bureaus and other farm organizations.

Entries close May 10, 1938. The first prize is \$100 and all awards will be made during State Fair week.

Miss Clara Sparks, State Supervisor of Home Economics, of Springfield, Illinois, spent Tuesday visiting the Home Economics Department of the Antioch Township High school. This was her first visit to our school and she was very favorably impressed by this department and the work done by the students.

## COACH COMPANY TO RESUME LAKES SCHEDULE MAY 21

### President of American Co. Says Antioch Route Paid in 1937

The American Coach company will resume its Lake Region schedules on Saturday, May 21, according to announcement made today by President A. R. Gerner.

Granted a franchise last June by the Illinois Commerce commission, the company began summer schedules here and throughout the lakes region on July 1. Although the summer business, especially the Antioch-Waukegan route, proved profitable, bus travel in the locality took a sharp decline during September and the company petitioned the commerce commission for permission to suspend operation until May this year.

The American company is co-operating with the Chicago and North Shore Line in working out convenient and rapid transportation between Chicago and the Antioch region, President Gerner said.

Tentative schedules were brought to Antioch yesterday by Mr. Gerber, and these will be submitted to the Illinois commerce commission for approval before the start of the service here on May 21. Year around service is a possibility, Gerner told the News, and the company intends to render such convenient service that all year schedules will be in demand.

## GRADE PUPILS READY FOR ANNUAL SPRING FESTIVAL TOMORROW

### Music and Dramatics Give Promise of Fine Program

Spring Festival, a program of music and dramatics, which is the annual presentation of the pupils of the Antioch Grade schools, will be staged tomorrow (Friday) night at the High school auditorium at eight o'clock.

The program is under the direction of the teachers of the first five grades: Mrs. Fern Lux, Miss Mary Galiger, Miss Ruth Henn, Mrs. Ruth Smith, and Miss Doris Mason, and the give club and the band are under the direction of Hans von Holwede.

The first grade rhythm band will lead off the program with three numbers, to be followed by the second grade rhythm band, also in three renditions.

Pupils of the fourth grade will present a bit of dramatics, "The Court Trial," a one-act play taken from the story of Alice in Wonderland. The third graders will give their interpretation of five Indian Dance numbers.

"The Secret of the Basement Door," a two-act play depicting incidents from American history illustrating the invention of the cotton gin, will be the dramatic contribution of the fifth grade.

Special musical numbers have been arranged for the 6th, 7th and 8th grade glee club which will render four selections, and the boys' glee club will be heard in three numbers. The band will play four numbers.

## Young Drivers Are 10 Times More Reckless, Says Motor Club Report

Drivers of high school age would have ten times as many fatal accidents as motorists 45 to 50 years old if miles traveled by the youngsters were as many as those traveled by older motorists.

George Barton, head of the Chicago Motor club safety and traffic department, made this statement today after analyzing statistics on the number of traffic deaths of drivers in both age groups.

"When the number of deaths to high school students per hundred miles traveled is compared with the same figure for older drivers it is seen that the youngster is ten times as likely to be involved in a traffic fatality," he said.

"This record of young drivers indicates immature judgment, which can be remedied by safety education, a system which will permanently improve the accident record."

### Job Killer!

The Number 1 job-killer!  
That is the way the Businessmen's Tax Advisory Committee characterizes the Federal Tax on Capital Gains.

The reason for that is clear. Jobs depend on investment. And the capital gains levy, because it prevents putting savings to work, by exacting excessive tax penalties from those who are fortunate enough to make a profit on a business or investment venture, retards and stops investment—the source of all jobs and all productive wealth.

This organization also points out a fact that is startling and is not widely known. According to U. S. Treasury data for the year 1935, the capital gains levy is a "soak the little fellow" tax. In that typical year, aggregate capital gains were much larger in the lower income than in the higher income brackets. And the ratio of capital loss (for which little credit is given in making tax returns) to capital gains was highest in the lower income brackets. It's the "little man" who gets stuck hardest!

Businessmen aren't the only ones who are fighting the capital gains measure. An army of distinguished economists are fighting it. Publicists by the score are describing its dangers. Thus, Mark Sullivan recently wrote: "If America is to be kept a going concern, the capital gains tax must be repealed or greatly modified." That is a strong statement—but no stronger than the subject justifies. What sane man will take a chance on financing a new endeavor, whether it be a grocery store or a steel mill—knowing that if he loses his investment, he must bear the entire loss—but that if he makes a profit, a large part of it will be taken from him by this tax?

All the evidence can be summed up in one sentence: We must change the capital gains tax if we are to encourage recovery and progress in this country.

### Spring's a Good Time to Stay Alive!

Spring is a happy season, with old mother nature reawakening. You can add to the joy by making a contribution to safety in your own home.

There is a real need for this after the long winter months, when many dangerous conditions develop. Now is the time to clear out all accumulations of papers and rubbish from attics and cellars, before they cause a serious fire.

When burning trash and papers outside, an incinerator should always be used. Field grass and papers should not be burned on windy days, and never without close supervision. Now is also a good time to make a complete check-up of anything else that might cause fire. Look for such hazards as defective electrical equipment, frayed and worn wiring, pennies behind blown fuses, defective heating plants and chimneys, fireplaces without screens and hot ashes in wooden ash containers. Cleaning with gasoline is very dangerous.

After painting jobs, which many do in the spring, be sure to dispose of oil or paint soaked rags and clothing. A warning from the National Board of Fire Underwriters states that many homes are burned by spontaneous ignition fires from paint rags left in a heap.

### Diminishing Returns

There is ample evidence that taxation in the United States has reached the point where the law of diminishing returns is operative. The shackles of excessive taxation need to be loosened, not tightened, but the federal government and almost all state and local units continue to search for fresh means of extracting money from helpless taxpayers.

The problem is so simple that even a run-of-the-mine politician could grasp it, if he every could be induced to direct a little attention toward it. Business thrives and enterprise is stimulated when a reasonable part of the profits can be retained by the business men. If government exactions take an unreasonably large part of the returns of individual effort, that effort is blanketed and smothered.

### The Millennium

We can't have a revolution after 1948. If the rate of increase continues as it has for a decade, in ten more years all of us will be working for the government.

\*\*\*\*\*

### Promising

A student in a Michigan college has been financing his education by holding up gasoline companies. He ought to have a career in politics when he gets out of jail.

### Still With Us

All our life we've been hearing that the world is just on the verge of falling to pieces, and every morning we get up and look out the window, and there it is.

### Some Difference

The difference between sowing wild oats in the city and the country is that the neighbors in the country know the size of the crop.

### 'Irish' Potatoes Were Born in Peru!

"IRISH" potatoes did not originate in Ireland. The lowly tubers which primitive people of the South American Andes dug from the soil were taken by early explorers to Spain, from which country it passed into Italy, Belgium and then Ireland. Sir Walter Raleigh first used it at his Irish estate near Cork. For years the Irish had sought something that would grow in their unfertile soil and the potato succeeded. Although there are now 25 varieties of the potato, the grandfather of them all still grows in Peru and Ecuador, where the Andean native watches over his flock of llamas and his field of potatoes with equal care.

### Ape Executed as a Spy

One day during the general European war of 1701-1714, a ship was wrecked off the fishing village of West Hartlepool, England, and the sole survivor, an ape, was washed ashore. None of the villagers had ever before seen such a creature, says Collier's Weekly, so the monkey was tried by court-martial, found guilty and hanged—as a French spy.

### Islands of British Isles

There are about 5,000 islands included in the British Isles. But the principal islands and groups of islands are England, Scotland, and Wales; Ireland; the Orkney and Shetland islands; the Hebrides; the Isle of Man; the Scilly islands; the Channel islands; and the Isle of Wight.

### Siamese Twins Wed Sisters

The original Siamese twins, Chang and Eng, once exhibited by P. T. Barnum, were married to two sisters and together raised 22 children. This prize family lived alternately in two farm homes, going from one to the other every three days when not on tour.

### Lazaretto, Name for Hospitals

Lazaretto is a name given in Italy and other parts of southern Europe and also in Hawaii and California to isolated hospitals for those afflicted with contagious diseases. The name is derived from Saint Lazarus, the patron saint of lepers.

### Cumberland Gap a Gateway

Cumberland Gap is the gateway through the Cumberland mountains from eastern Kentucky on the north to east Tennessee on the south. The southwest corner of Virginia touches it also on the north.

### Seal Has External Ears

## Miss Fanny Westlake is Bride of Fred Yates

In a pretty ceremony performed in the First Methodist church in Des-Plaines Sunday at 2:30 o'clock, Miss Fanny Louise Westlake became the bride of Fred Yates, Jr. The ceremony was performed by Rev. P. T. Bohi, former Antioch pastor, in the presence of about 25 relatives and friends of the young couple who had accompanied them to Des-Plaines.

Attending the couple were Mr. and Mrs. Monte Hinton, of Syracuse, New York, the latter being a sister of the bride. Joseph Eldrich of Kewanee was usher. The bride was beautifully attired in white satin and lace.

Following the wedding a reception was held at the Westlake home at 483 Lake street, Antioch.

The bride is the younger daughter of Mrs. Clara Westlake, and she has been employed as bookkeeper at Scott's Dairy for several years. Mr. Yates is the son of Mr. and Mrs. F. A. Yates, also well known residents who live east of Antioch.

The newlyweds will live at Lake Catherine.

SCIENTISTS TIME  
LIGHTNING'S SPEEDUse World's Tallest Building  
in Making Tests.

New York.—Lightning's speed has been measured by scientists at 10,000 miles a second. They used the world's tallest building for a lightning rod, the 1,250-foot Empire State building in this city.

This structure is struck by bolts from the clouds more frequently than any other known place on earth, according to Karl B. McEachron, director of the lightning laboratory of the General Electric company.

It acts like a needle to draw electricity. A motion picture camera, on top of a skyscraper half a mile from the Empire State, has caught every flash for three years.

New facts have been discovered. The most interesting, Mr. McEachron said, is that a tall building uses a tongue of fire to wheedle lightning. Frequently before lightning hits the Empire State, a spindling flame leaps upward from the top of its tower, almost a quarter of a mile up.

The flame does not go all the way to the clouds. It reaches like a snake striking at something far beyond its length. It guides the lightning that always follows, crashing down the tower.

The scientific importance of this, said Mr. McEachron, is to prove that the shape of an object on earth will often decide the direction of the initial lightning stroke. Lightning usually strikes downward. A cloud starts it. But the Empire State building many times pops at the clouds.

The camera settled a long controversy. The dispute was about which direction lightning branches, up or down. Pictures showed both directions. The Empire State evidence shows that the branches will go in the direction of the original stroke.

This original stroke is not seen by the human eye. It is a series of lance-shaped flashes, each about 200 feet long. These, one after the other, seem to drill a path in the air for the main stroke of fire. Each lance proceeds a little farther than the one before.

Often, Mr. McEachron asserted, there may be 30 of these lances before a flash. Occasionally they take a hundredth of a second to build the pathway. They can start either from earth or from the sky.

They explained, Mr. McEachron said, the ripping sound in a thunder clap.

## U. S. Government Guards

## Wisconsin Boy's War Ray

Madison, Wis.—Somewhere in Wisconsin a farm boy with a penchant for monkeying around with old batteries, wires, coils and other "junk" found in any farmer's tool shed, was reported under the eagle eye of armed guards.

The guards were said to be from Washington, on hand to protect a "thingumajig" from prying eyes. H. E. Taylor, president of the National Inventors congress, revealed the boy had invented an electrical ray which will put out of commission any electrical apparatus within eight miles.

He said perfection of the instrument would give the United States the strongest weapon in existence because it would nullify the many electrically-powered machines of modern warfare.

Taylor refused to divulge the youth's identity, or the location of his farm home.

During experiments, he said, the ray, emanating from equipment fashioned from an old, discarded battery radio set, stopped the engines of all automobiles within the range of a pair of field glasses.

The engineers communicated with the War department officials, Taylor said, and on subsequent visits to the form representatives of the Inventors congress have been refused admittance to the grounds by armed guards vigilantly patrolling the property.

Sophomores Are Worst  
College "Class Cutters"

Troy, N. H.—Sophomores are the greatest offenders in "class cutting" at Rensselaer Polytechnic institute, Dr. Ray Palmer Baker, assistant director, reports.

"Generally speaking," he said, "the freshman is too timid to risk it, the junior feels a little too grown up, and the senior, now deeply in love with his alma mater, sees his last year passing altogether too fast to deny her any time."

A "follow-up system" which stops cutting before it becomes a habit has kept absentees at an unusually low average at R. P. I., Dr. Baker announced.

## Knitting by Women

Albany, N. Y.—Women jurors will not knit in his court, Supreme Court Justice Francis Bergan has warned.

"It would be distracting to other jurors, the witnesses and to the judge," he explained.

He added that "women have as good judgment as men and sometimes better, and, therefore, should not fear approaching the job of jury service, which has been a sanctuary for men for centuries."

County TB Association  
Urges Early DiagnosisNext Clinic to Be Held April  
27th at St. Therese  
Hospital

The next chest clinic will be held at St. Therese hospital Wednesday, April 27th from 8 to 11 A. M. with Dr. Peter as clinician. New patients desiring examination will please call at the office of the Association in the Court House or telephone Majestic 1805.

The Association in connection with its Early Diagnosis Campaign for Tuberculosis is urging people to seek the advice of their physicians before they become sick. With periodical check-ups different diseases may be recognized in their early form and while easily cured.

A generation ago tuberculosis was considered a sharply outlined disease. Now it is different. We think of tuberculosis in its early stages as a submerging disease. When tuberculosis begins, there are no symptoms. Later it may warn one by an unexplained fatigue, loss of appetite, loss of weight, and a persistent cough. The modern way of discovering tuberculosis is to search for it with the tuberculin test and the X-ray film, particularly in the group from 15 to 25.

Most people wait to go to their doctor until they have definite symptoms. Reminders are necessary to point out that the only possible policy in the face of our present day knowledge, is to anticipate serious tuberculosis long before there are symptoms or signs. That is why, each year, beginning in April, tuberculosis associations throughout the country carry on an educational early diagnosis campaign to help you, your family, and your community to good health.

## LAKE VILLA

Lake Villa Com. Church (M. E.) Sunday School—10 A. M.  
Worship Service—11 A. M.

The Senior choir will sing next Sunday and through the summer months will alternate with the Junior choir. The Easter service was beautiful, the Easter lilies and other flowers donated by friends of the church added a great deal to the beauty, and the Junior choir directed by Mrs. Swanson with Dorothy Meyer, accompanist, did nicely. There was a larger attendance than usual and the pastor gave an inspiring Easter message.

Mrs. H. J. Nelson is spending this week in Chicago with her cousin, Miss Eula McCracken.

Jimmie and Dick Nader of Green Bay, Wis., returned to their home Monday after a week spent with their grandparents, Mr. and Mrs. Frank Nader.

Mrs. Anna Belck, who spent the winter at the Frank Nader and Fred Hamlin homes, has gone to Fox River Grove to be with relatives there for the summer.

Jack Van Buren has transferred his Ford sales agency to the Swanson garage and the Hucker company has taken over the building and grounds vacated by Mr. Van Buren for their Plymouth and Chrysler agency.

Mrs. F. M. Hamlin entertained a group of ladies at a card party at her home Monday afternoon for a missionary benefit and the ladies had a delightful time.

Mrs. Mary Kapple is visiting Grayslake relatives and friends for a couple of weeks.

Mrs. George Mitchell of Chicago spent Thursday and Friday with her parents, Mr. and Mrs. James Kerr.

Mr. and Mrs. B. J. Hooper, drove to Champaign on Thursday and Misses Lorraine Hooper and Betty Reinbach returned home for their Easter vacation.

Rev. Allen enjoyed a week of vacation from his studies at Garrett Institute last week and returned on Monday.

Mrs. Wm. Weber attended a party at the Drake hotel in Chicago on Wednesday.

Mrs. Marie Kelly who is employed at the Victory Memorial hospital in Waukegan, spent a few days last week at her home here, and her boys who are students at Allendale, enjoyed their vacation with her.

James Leonard and family of Chicago and Anthony Leonard and family of Round Lake visited their parents, Mr. and Mrs. James Leonard on Easter Sunday.

Mrs. Lawrence Thayer and her sisters, Misses Alice and Katherine Murrie of Highland Park, were guests of Mrs. Louise Thayer last Thursday.

Mrs. James Kerr and Mrs. Peter Mork are the latest victims of "galloping" parties—Mrs. Kerr on last Friday afternoon and the group visited Mrs. Mork on Wednesday to help celebrate her birthday.

Mr. and Mrs. W. G. Hucker enjoyed a motor trip to central Illinois last Saturday.

Amateurs, here is another chance for you. There will be an amateur program at Sand Lake school on Friday evening, May 6th. If you have talent, come on and see if you can win a prize. Call Lake Villa 140-W-2 at any time or 116R after 5 in the evening. All entries must be in before April 28th. There will be a small admission fee. Don't forget to attend the concert by the German band of Evanston at the church on Friday evening, April 22. You will enjoy it.

Mrs. J. O. Hucker and J. O. Hucker, Jr., visited Mr. and Mrs. George

Mitchell, nee Alice Hucker, in Chicago, on Sunday.

Mrs. Fred Hodgkins entertained a number of little folks at her home Saturday afternoon to celebrate the eighth birthday of her daughter, Joan Hodgkins.

Mrs. J. O. Hucker and Mrs. C. B. Hamlin attended a school of instruction for Royal Neighbor officers at the Karcher hotel in Waukegan on Tuesday.

Mr. and Mrs. Schroeder who have been in Chicago for the winter, have returned to their cottage at Deep Lake and have opened their home bakery in our village.

## Lake Villa School News

Upper Room

The boy ball players have hats with "L. V." on them, the girls have arm bands with "L. V. S." on them. We are all proud of them.

We played Mundelein Thursday, April 14, and lost 9-8. The girls may have a game with Gurnee this week or next week.

This is Conservation Week. This is the third year we have observed it. There will be a candy sale next Tuesday.

Each week Miss Janison chooses two pupils of the room to choose songs for our new books to sing. Marjorie McLaren and John Meyer are selecting them this week.

Intermediate Room

Every one seems to have enjoyed the Easter vacation.

Thursday afternoon we had an Easter egg hunt in the yard. Charles Madsen found the most—finished up with 19, all of which he ate.

Lois Parsons spent Monday at the Court House in Waukegan where her mother is employed. She informs us it is a very interesting place.

Lois entertained us Thursday with a soap "Dopey"—painted in different colors.

We expect to finish our Picture Study books this week.

We will soon be decorating our board for May.

Primary Room

Bruce spent his vacation with his mother. He saw five shows, got a complete new Easter outfit, went to church with his mother Easter Sunday. The Reynolds family spent Easter in Lake Villa, so Valerie, Buddy and Pat had a busy Easter hunt.

Bob Thompson spent Easter in Chicago.

Bill Hucker and Gene Nickerson also got new Easter suits.

Joan Hodgkins had a birthday party Saturday. Twelve little people had a very happy time at Joan's party.

Kathleen Gindich spent a very pleasant Easter vacation in Chicago. She also enjoyed an Easter egg hunt.

Ronald Sonnenberg is more pleased over a baseball cap he received today than he was over his new Easter hat.

Pat wearing a new red Easter chapeau. Explained he's a Dutchman now instead of an Irishman.

Marlene Nader had guests at her home from Milwaukee.

Tom Salzgaber spent Saturday and Sunday with his Grandmother.

Barbara also participated in an Easter egg hunt.

Triumphal Arches in Rome

Three triumphal arches erected by the ancient Romans to celebrate victory stand in modern Rome—the arch of Constantine, of Septimius and of Titus.

**Try These Short Cuts**  
The best grapefruits are heaviest for their size with thin skins. More weight means more juice.

**Novel Suggestions to Add Zest to Your Sunday Breakfasts**  
Sunday breakfasts are, in most homes, a ritual that occurs once a week accompanied by a fanfare of "extra-special" delights to tempt the palates of late risers and early churchgoers alike. But unfortunately we can not serve the same dishes, however delicious, week after week or they soon cease to be favorites. Here are several Sunday breakfast suggestions

which will stand you in good stead:  
This is a breakfast for the extra lazy Sunday morning. It will win the appreciation of the week-end guests and put energy into the latest Sunday riser. You begin with sliced pineapple chilled to a delicate frost and served "on the half shell." Next, grilled chicken livers and bacon, smoking hot. You end the meal with coffee and a crisp coffee ring.

Here is another "perker-up-er." You start—conventionally enough—with half a grapefruit, deliciously chilled. Next, little pig sausages, still sizzling from the pan, served with fried apple rings. Last, serve coffee and a pecan ring, studded with glazed pecan kernels.

Here is a simple but delicious breakfast. First a luscious baked apple; then poached eggs, mounted steaming hot on codfish cakes; and last, with your coffee, brittle Danish pastry.

To top it all off, here is the answer to the breakfast in bed problem. First a glass of iced orange juice. Follow with a hot liver and bacon patty and wind up with your coffee and a flaky cinnamon roll.

**Versatile Lemon Gives Balance to Many Dishes**  
If you are looking for a spring tonic for your menus, you need look no further than the humble lemon. This plump, juicy, deep yellow fruit is a flavorful food as well as an accompaniment. Appetizers take on added zest with lemon juice. Meat and fish are balanced and pleasantly flavored by the addition of lemon.

You already know what lemon juice does for your salad dressings and how delicious it is when combined with melted butter and served as a sauce with plain boiled vegetables. Lemon pie! What better meal brightener could you ask for any day? But pie is not the only dessert that depends for its appeal on the tart, lively flavor of lemon juice and grated peel.

Here are some new lemon recipes for you, every one of which I believe you will enjoy:  
Frozen Lemon Pie  
Ingredients: Two eggs beaten until

lemon colored, ½ cup sugar, ¼ cup white corn syrup, 1 cup milk, 1 cup cream, ¼ cup lemon juice, 1 teaspoon grated lemon peel.  
Add the sugar to the beaten egg and continue beating until the mixture is thick and custardlike. Combine with the remaining ingredients. Freeze until stiff. Remove to a bowl and whip until light and creamy. Return to the refrigerator tray for a few minutes while you prepare the crust. For the latter combine 1½ cups rolled Graham cracker crumbs, ½ cup melted butter and ¼ cup sugar. Line a mold or refrigerator tray with waxed paper. Spread the bottom with the half of the crumb mixture and press into place. Pour in the lemon cream, and cover the "pie" with the remaining crumbs. Freeze again until firm.

**Lemon Cup Appetizer**  
Ingredients: 2 lemons, 1 small can sardines cut in pieces, 1 hard cooked egg chopped, ½ teaspoon minced onion, ½ tablespoon lemon mayonnaise, 1 tablespoon lemon juice.  
Cut the lemons in halves and remove a slice from the bottom of each half so the cups will stand level. Extract the juice carefully and clean out the shells. Combine the remaining ingredients and fill the lemon shells. Garnish each cup with a slice of stuffed olive. Chill in the refrigerator until serving time. Serve each cup in a crisp, curled lettuce leaf.

**Lemon-Maple Dumplings**  
Ingredients: 2 unpeeled thinly sliced lemons, 1 teaspoon butter, 2 cups maple syrup, 1 cup sifted flour, 1 teaspoon baking powder, ¼ teaspoon salt, 3 tablespoons sugar, 1 tablespoon butter, 1 egg well beaten, 1/3 cup milk, ½ teaspoon vanilla.  
Combine the first 3 ingredients and cook in a saucepan 20 minutes. Combine the remaining ingredients to make the dumpling batter. Drop on top of the boiling mixture, cover tightly, reduce the heat and steam about 20 minutes or until the dumplings are done. This is a delicious and unusual dessert.

**Only French N. A. Territories**  
Miquelon and St. Pierre, two small islands off Newfoundland, are the only French North American territories.

# SERVEL ELECTROLUX

## AN OUTSTANDING REFRIGERATOR BARGAIN!

**Liberal Allowance**  
—on your old icebox or mechanical refrigerator. (Depending on cost of new Electrolux).

**SMALL DOWN PAYMENT**  
As low as 30 months to pay balance on your Gas Service bill.

### Here's Why GAS Refrigeration Saves You Money Year After Year

Electrolux, the gas refrigerator, saves because it's different. The little freezing mechanism which makes cold with the tiny blue "thrift flame" is the only freezing mechanism which has no moving parts. No moving parts means no parts to wear—giving you longer life for your refrigerator... and low upkeep cost, for there are no expensive replacements. It also costs less to operate, because efficiency is held at the same high level, allowing the "thrift flame" to scrimp on fuel, year after year. Then, too, you get permanent silence—parts that do not move, do not make a noise.

See this beautiful new Electrolux today!  
Come in and see the refrigerator that saves—marked at a lower price than ever before—with a generous trade-in allowance and more sensational new convenience features. See the extra roominess, the compact arrangement, the features that cut down on work—safeguard family health with dependable food-keeping. See the thrilling beauty it will bring into your kitchen.

### See These Great NEW Features!

- 1. New Tray Release.** A gentle lift of the hand on the new tray release frees the tray without a struggle.
- 2. Stainless Steel Cube Release.** Flexible cube release makes it easy to get one cube or the entire trayful at once. No holding under tap—you get 20% more ice!
- 3. New Illuminated Temperature Dial.** In plain view every time the door is opened. The indicator reports the temperature in the food compartment, giving assurance that the constant cold of Electrolux is protecting your food every minute.
- 4. New Adjustable Cold Storage Tray.** This tray is adjustable to two levels in the coldest part of the food storage compartment. It is ideal for thoroughly chilling meats and other foods—will accommodate bottles and bulkier roasts.
- 5. Push or Pull Door Opener.** When hands are full—just give this latch a slight nudge—the door opens instantly.

### Dan Hentges Named Chairman of County Board of Supervisors

Supervisor Daniel Hentges, of Shields township, was named chairman of the Lake county board of supervisors at the organization meeting Thursday. Hentges succeeds Homer T. Cook of Wauconda. Hentges' election was unanimous.

"I know that it is going to be a hard year—every year is hard," Hentges said, "and I hope I can be as good as each of the last seven chairmen since I have been on the board."

He pledged himself to work with the board committees to be named at the adjourned organization meeting at 10 a. m. today, and urged the entire board to cooperate for the best interests of the county.

Members of the Lake Co. Tavern Owners Protective Ass'n. invaded the county building and cornered different supervisors as they came to the organization meeting, urging them to delay any attempt to increase the fees from the present \$150 annual charge. At the same time the tavern keepers said opening and closing hour restrictions would only encourage bootleggers.

### REBEKAHS CELEBRATE BIRTHDAY ANNIVERSARIES

April birthday anniversaries were celebrated at a meeting and party held by the Rebekah lodge at their hall Wednesday evening. Games were played and a luncheon was served following the social hour.

### Ashes Shot From Cannons

The ashes of Dimitry, tsar of Russia in the Seventeenth century, were shot from cannons, lest they reassemble and come back to life.

### Libertyville Plans to "Sock" Peddlers

While the Antioch board was repealing the food vendors and so-called peddlers licensing ordinance here Tuesday night, Trustee John Jaeger of Libertyville was reading a proposed ordinance in the council meeting there calling for license fees ranging from \$50 annually to \$2 daily for cart, truck and foot peddlers. If adopted, it is expected to be amended to require finger-print registration of all applicants.

The fees set up in the proposed ordinance call for fees of \$50 annually, \$15 monthly or \$3 daily for cart or truck peddlers and \$25 annually, \$10 monthly and \$2 daily for foot peddlers.

### Townsend Clubs to Hold Mass Meeting in Waukegan

The various Townsend Clubs in Lake County are sponsoring a Mass Meeting which will be held next Sunday afternoon and evening, April 24th, in the Central School (one block north from the Court House), Waukegan.

The afternoon session will start at 3 p. m. with W. E. Schuck, Editor of the Townsend Weekly, as the speaker. The evening session will start at 7:30 p. m. with John Maxwell, of Chicago, as the speaker.

Lunch will be served at 5:30 p. m., and music will be furnished by a Townsend musical organization.

The public is invited and urged to attend—and an enormous crowd is expected. This will be an opportunity for everybody to learn what the Townsend Plan really is.

Leland Stanford University  
Leland Stanford university was founded in 1885.

### Rotnour To Present Three More Plays At Crystal Theatre

Only three more stage plays remain on the J. B. Rotnour schedule at the Crystal theatre. Tonight the presentation will be "Home on the Range," a sure-fire western comedy. Next Thursday night "Cheating Cheaters" will come to the Crystal stage, a standard comedy with a touch of mystery, thrills and lots of comedy, says "J. B." Special arrangements have been made to use this play as the lead-off attraction for the summer season.

The company continues to draw capacity houses each Thursday night. Get merchants' free tickets from any of the firms listed in the Crystal ad. The entire company will appear in each of the three remaining plays, and there will be vod-vil numbers between the acts.

### Hi-Ho Club Enjoys Trip to Milwaukee

All members of the Hi Ho club went to Milwaukee last Monday.

After enjoying a real German dinner at the famous Mader's restaurant, they went to a matinee and did shopping.

The Hi-Ho club meets only during the winter and early spring months. The Milwaukee trip terminated this season's activities.

Just prior to the Milwaukee trip Miss Irene Haling, entertained the club at a regular meeting of the members.

Many original ideas were used in serving and table decorations.

### AMUSEMENTS

#### "College Swing" Offers New Popular Songs

Few screen musical comedies can boast the lavish ensemble of popular songs which are heard in "College Swing," the Paramount production now showing at the Gateway Theatre. Put across by a well-equipped cast of favorites, including Burns and Allen, Martha Raye and Bob Hope, they number eight in all, and come from the pens of some of Hollywood's best known composers.

Heading the list are "I Fall in Love with You Every Day," and "You're a Natural," by Frank Loesser and Manning Sherwin.

Singing is the order of the day in this story of what happens to a university when the school dumbbell inherits the place through the peculiarities of an old will and sets about putting her ideas of "liberal education" into effect.

Second feature: Lloyd Nolan in "Tip Off Girls."

#### New "Lapel Mike" Catches Dialog Against Roar of Airplane Motors

Meet "Flying Mike," the pal of Clark Gable.

In his new role in "Test Pilot," opening today at the Kenosha Theatre Gable conducted the initial test for a new lapel microphone, designed to provide sound variation in actual flight.

According to Wally Wallace, sound technician assigned to the aviation picture, "Flying Mike" catches the sound of Gable's voice clearly, at the same time recording the whine of wind in the wires and the roar of the motor.

In order to function, "Flying Mike" was attached to the under surface of the flying star's sheepskin coat. Gable spoke with his head lowered into the upraised coat collar. The leather and sheepskin protected "Mike" from the terrific vibrations caused by wind and engine.

When the device passed the test, it brought to the public for the first time the actual sounds heard by a test pilot in flight. Until now it has been impossible to record flight sound and human voices at the same time owing to vibration.

In "Test Pilot," Gable plays the title role, with Myrna Loy as an unsophisticated farm girl and Spencer Tracy as mechanic. Lionel Barrymore impersonates an airplane manufacturer. Paul Mantz, intrepid co-pilot with the late Amelia Earhart, was technical adviser, and the director, Victor Fleming, is a trained pilot.

### MILLBURN

The dramatic club of the Salem M. E. church will give a play, "Welcome Back to the Old Home Town," in the church basement at Millburn Friday evening, April 22.
